

Empire Optical - Premium Lab

Empire is dedicated to the independent eye care professional.

We provide our customers with the best and latest lens designs available in the market today. We empower our customers, through unbiased product information, to make their own informed

At Empire, we believe in investing in the finest optical equipment available in the industry.

Our surface room utilizes 3-axis CNC generators and the latest cylinder machine technology. Our finish department implements the latest edgers to accommodate a wide array of bevels and shapes. All of our equipment is integrated through Digital Vision Inc. (DVI) software, used by the finest ophthalmic laboratories. On the premises, we have a Crizal family facility where we produce all of the latest Crizal products. By investing in these technologies, we can ensure you quality and consistency for many years to come.

Our laboratory staff and representatives in the field are what really set us apart.

Our people actually care about you and strive everyday to provide you with a high level of service and attention. We work together as a team, in a friendly family atmosphere, and genuinely love what we do. Collectively, we possess over 200 years of optical experience in all aspects of the industry. We are experienced, focused, and completely committed to producing the finest ophthalmic products.

Over almost 40 years, we have continued to grow through the support and loyalty of our customers.

Our staff thanks those of you who have chosen to become a part of the Empire family. We remain focused and committed to you and your business.
